

A letter to our patients,

Dr. Lerner and Dr. Lemongello have been actively following the Coronavirus (COVID-19) outbreak. The doctors and team have developed a plan to help keep everyone safe. Our team is committed to providing a safe and healthy environment for our families and staff. At this current time we are following the guidelines set forth by the CDC, Florida State and Palm Beach County Departments of Health.

As always, all of our treatment rooms, surfaces, instruments and dental equipment are thoroughly disinfected and sterilized prior to seeing each patient with medical grade disinfectants and the use of an autoclave. As you know, we strive to see our patients on time and limit your time in the common areas of the office. For the time being we have removed all of the magazines from the waiting area. The common areas (waiting/reception area, bathroom) including chairs, door handles and countertops will be disinfected frequently throughout the day.

We kindly ask that as you check in for your appointment you utilize the automatic hand sanitizer, or you may proceed to the restroom to wash your hands.

At this time, we have no plans to cancel appointments but we will keep you informed if anything changes. For the safety of our staff, as well as other patients we ask that if you are coughing/sneezing with or without a runny nose, or have had a fever in the last 24 hours, please stay home until you are 100% well again. Please do not hesitate to call the office with any additional questions you may have.

We will continue to provide updates as the situation progresses and wish everyone to stay safe and healthy!

*Sincerely, Drs Lerner and Lemongello*
