

“Enhancing Smiles, Changing Lives”...

By AMY LAGAE

The world of dentistry has certainly changed over the last two decades and those of us who live in Palm Beach are extremely fortunate to have two dentists on the forefront of that change in our own backyard. I am speaking of my latest discovery, the offices of Drs. Lerner and Lemongello. Over the coming months, Palm Beach Society will be featuring **Drs. Jay M. Lerner and Gerard J. Lemongello** in a series of conversations about dentistry today, cosmetic dentistry and all of the latest procedures they bring to our area.

I've visited Drs. Lerner and Lemongello twice now in the last few weeks at their Palm Beach Gardens office and it already feels “homey,” which is exactly how they like it. Drs. Lerner and Lemongello are both, in their own individual ways, approachable, funny, honest and extremely knowledgeable. “Dentistry combines health, beauty and creativity,” explains Dr. Lemongello, “Very small sculptural details can make a large difference in enhancing a smile.”

Today, thanks to dentists like Drs. Lerner and Lemongello, dental treatment feels more like a makeover and their office definitely feels

Dr. Jay M. Lerner and Dr. Gerard J. Lemongello

more like a spa than a clinic. With state-of-the-art computer imaging, office staff trained with the Ritz-Carlton customer service philosophy and dentists who are artistically gifted, this office is the perfect choice for all of my dental needs.

For more information or to schedule an appointment, call 561.627.9000 or visit www.lernerlemongello.com. And stay tuned in the coming weeks as *Palm Beach Society* answers all of your questions about dentistry today with Drs. Lerner and Lemongello.

CREATING SOUTH FLORIDA'S MOST BEAUTIFUL SMILES.

Drs. Jay Lerner and Gerard Lemongello are internationally acclaimed cosmetic dentists who create beautiful smiles for some of South Florida's most recognizable faces. The Lerner & Lemongello team lecture and instruct at the prestigious Aesthetic Advantage Continuum presented at New York University. Dentists from around the world travel to Palm Beach Gardens to study under their guidance and enhance their own smiles.
